WHO WE ARE

Masterwork Plaques is a Brooklyn-based design and metal signage studio that produces high quality metal plaques. Women-owned and operated, clients such as the Central Park Conservatory, the Smithsonian Museum and NYC Parks commission us to create long-lasting, visually unique products in metal relief. Our projects vary in scope from client to client, ranging from standard signage and historical medallions, to complex wayfinding systems and commemorative projects.

WHAT SETS US APART

- Well-Versed in Government Buying Process
- Thorough Knowledge of Materials
and Installation Techniques
- Assistance with Spec Writing and Shop Drawings
- Only American Made Products
- Commitment to Supporting Local Foundries
- Clear Communication and Project Management
- Rush Turnaround Options
